HAND SANITISER STATIONS **NEW RANGE!**

In order to reopen, businesses must, amongst other things, provide adequate hand washing facilities, including hand sanitiser stations where washing with soap and water is not available or practical.

Our new range of freestanding hand sanitiser stations offer a quick and easy way to bring hand sanitising facilities to your premises. They're made of a lightweight board, with plastic edging and are wipeable, so they're easy to keep clean. The sanitiser dispenser unit is automatic, helping to keep the unit germ-free.

It comes printed in full colour on one (or both) sides with your branding or specific hygiene message.

Terms & Conditions: Price inclusive of delivery to one UK address. Lead time of 6 working days from sign off of final product. Discounted unit rates for bulk orders. Also available with a double sided print to both sides of the board at an additional cost.
