Instructions for use

NOT SUITABLE FOR MEDICAL USE

it is a source control mask (otherwise known as a barrier mask) to be used in areas where social distancing is not possible to catch droplets expelled when coughing, sneezing etc to protect those around you.

Wear your Face Covering Correctly

Wash your hands before putting on your face covering, Put it over your nose and mouth and secure it under your chin, Try to fit it snugly against the sides of your face, Make sure you can breathe easily.

Take off Your Cloth Face Covering Carefully, When You're Home Unhook the stretch the ear loops, Handle only by the ear loops, Fold outside corners together, Be careful not to touch your eyes, nose, and mouth when removing and wash hands immediately after removing.

Do not use mask if it becomes damp, dirty, damaged or difficult to breathe through.

Place mask in the washing machine and wash at 60 degree using domestic detergent, do not tumble dry. Filter should not be laundered.

Applicable for mask with the PN2.5 disposable filter

Dispose of the filter if it becomes damp, dirty, damaged or difficult to breathe through.

Dispose of the disposable PN2.5 filter with your household waste

Not suitable for children under 12 years of age; Children above 12 should be instructed on the use of this mask and filter (if used) by a competent adult.

Mask option with adjustable ear loops contain small parts that may present a choking hazard, not suitable for young children
